BEGHETTO'S FAMILY

KATABE GROUP

CONSIST OF GOOD PEOPLE

- **THE KATABE GROUP consists of good people**, knowledgable staff with great ideas and good opportunities Under the KATABE GROUP name there are companies who have their own identity made by company mission statements and know how.
The values in all KATABE companies is respecting people and the environment.

All companies are the brain child of the Beghetto Family. The origins of the Beghetto family go back to the early 1700's when they settled in Bassano del Grappa, Veneto and setup shop doing wholesale trade.

Ms. Katia, daughter of Mrs. Andreлина & Mr. Sergio Beghetto through the KATABE GROUP continues the family tradition.

- *The experience of having consulted many years in worldwide markets on the production side and wholesale end gives KATABE a strategic advantage over it's competitors and a security for their customers.*
- *KATABE companies constantly strive to provide better products, better customer service and real human to human relationships worldwide.*
- *KATABE GROUP is always looking forward to the future. Finding new and innovative ways to build and create spaces where people can work and express themselves.*
- *The KATABE companies main business is today 90% in leather and leather products.*

Through our companies, KATABE can be found in: Italy, India, Spain, France, United Kingdom, Greece, Hungary, Belgium, Poland, Tunisia, Morocco, Egypt, South Africa, Mexico, Colombia, Chile, Vietnam, U.A.E., Australia and United States

- *KATABE GROUP trademark:*

The KATABE logo features a stylized 'K' icon followed by the word 'katabe' in a lowercase, sans-serif font.

A handwritten signature in black ink that reads 'Silvio De Gregis'.

The HABACS logo consists of the word 'HABACS' in a bold, uppercase, sans-serif font, enclosed within a rounded rectangular border.

The Real Piel logo features the words 'Real Piel' in a serif font, followed by 'RP' in a bold, uppercase, sans-serif font, all enclosed within a rectangular border.

LEATHER
PASSION
WORK

LEATHER PRODUCTION

PASSION WORK

The leather production in KATABE GROUP companies. We follow the long and passion process of our leather at every stage. The material is checked and inspected according to European standards.

- 1) Soaking: washing in water to remove impurities and folds from the hides
- 2) Pressing: excess water is eliminated and the hide is stretched
- 3) Splitting: the grain – the outer surface of the hide – is mechanically separated horizontally from the split (the lower part)
- 4) Shaving: the entire surface of the hide acquires a uniform thickness
- 5) Trimming: cutting, selecting and dividing the hide
- 6) Dyeing: the key point in the process, lending the hide softness, colour and stability (storage life)
- 7) Drying: removing the water via vacuum suction using special equipment made of steel plates
- 8) Conveyor: conditioning the leather by suspending it from an overhead conveyor at ambient temperature
- 9) Staking: the leather is softened using a machine that provides a mechanical beating action
- 10) Buffing: surface abrasion using special paper to lend sheen (for nubuck and suede splits)

11) Fulling: the leather is softened by mechanical buffeting within drums under controlled humidity conditions

12) Finishing: treatment to give the desired shine, colour and appearance

13) Ironing: this step is needed to ensure the level of shine required

14) Trimming: ensuring that the finished product has regular edges

15) Workshop: physical and chemical tests carried out to international standards and customer specifications

16) Selection: checking for quality, surface properties and thickness

17) Measuring: measuring with precision electronic equipment, packaging and shipping to the customer

PROPERTY	TEST METHOD	REQUIREMENT
1. Colour fastness to artificial light 72 hours	EN ISO 105B02	>=5 blue scale
2. Colour fastness to rubbing N° 500 dry rubs N° 250 wet rubs N° 80 perspiration rubs	EN ISO 11640 EN ISO 11641	>=4 grey scale >=3/4 grey scale >=3/4 grey scale
3. Finish adhesion	EN ISO 11644	>=2 N/10 mm
4. Flexing endurance	EN ISO 5402	0.000 cycles (no finish damage cracks)
5. Tear strength	EN ISO 3377	>=20 N
6. Burning behavior	IMO RES A652 (16)	Pass
CHEMICAL ANALYSIS	TEST METHOD	REQUIREMENT
Ph of aqueous extracts	EN ISO 4045	>=3,2 If the pH values is 4, pH<=0,7

COMPANIES

WHO WE ARE

ITALY

- **KATABE CONSULTING**
Breaking through barriers has been our mission here at KATABE since 2001. We specialize in those that try to prevent or other wise slow down the emergence of new relationships and B2B opportunities involving Italy with other countries. Our professional team is composed of people from different countries whose skills specialize in administration, research, communication, marketing, and sales in all fields of industry. KATABE CONSULTING provides services to companies, corporations, and entrepreneurs.

- **REAL PIEL SRL**
Real Piel SRL was established in Venice in 2004 due to the demand of high quality made to order furniture. REAL PIEL was created strictly to supply leather & pvc leather. It was at this time that our vision changed and saw the need to increase our range of products. This was made possible because of our partnership with the Twins Group (www.twinsgroup.eu). Today, REAL PIEL concentrates strictly on “made to order” pieces. To meet the high demand we opened a side company that specializes in upholstery for home and office furniture.
